The author wishes to thank The Shell Company of Malaya; The Singapore Information Department; The Department of Information Services, Kuala Lumpur; Malayan Airways Ltd., and Mobile Photos, for permission to use photographs.

## WHAT THIS BOOK IS ABOUT

Inside this book you will read all about the people and the land of Malaya. You will find out what the people do and how they use the land. Ours is a small country but it is very important not only to us but to other people all over the world.

We shall visit every part of the land of Malaya and meet all the people who call it their home. These are the people who are proud to be known as Malaysians. Some work in the fields, others work in mines. Then there are many who find their work in the shops and offices of the towns. Others transport the people and goods from one part of the land to another. Even the aborigines, who make their homes in the forest, depend on this country and its land for their daily living.

The maps, drawings and photographs are part of the story. As you read each chapter look very carefully at the drawings and pictures because then you will learn so much more about THE LAND OF MALAYA.
